

Uylong Song

FullStack Developer

Experiences

Backend Developer

Paragon International University · Internship

Nov 2025 ~ Present - Hybrid

I develop and optimize scalable server-side systems using the **Laravel** framework, focusing on secure API integrations and efficient database management.

Collaborating with cross-functional teams, I ensure seamless functionality across essential internal tools and student-facing services.

Webapp & Tech Development Executive

Origins Studios · Internship

August 2025 ~ October 2025 - Onsite

Worked as a full-stack developer using **Next.js** to architect, develop, and deploy internal systems and client-facing websites for ORIGINS Studios. Contributed across the full development lifecycle—implementing backend logic, integrating APIs, enhancing UI/UX, and optimizing performance for production environments.

Frontend Developer

Origins Studios · Internship

November 2024 ~ January 2025 - Online

During my time at CodeforCambodia, I leveraged **React.js** and **Express.js** to enhance the company's website performance. This experience honed my technical versatility and ability to collaborate effectively within a rigorous, problem-solving startup culture.

FullStack Developer

CamboConnect · Self-Employed

November 2024 ~ January 2025 - Online

A fullstack **Next.js** platform that centralizes Cambodian jobs, competitions, and events. It empowers users to easily categorize opportunities, apply efficiently, and stay updated on their status.

Education

Paragon international University Junior

Majoring in Management Information Systems

CGPA : 3.5
