PORTFOLIO

Executive Summary: Full-Stack Developer and AI Engineer specializing in high-performance web systems (Next.js 14, Nuxt.js, TypeScript), enterprise microservices (NestJS, Java Spring Boot, Laravel), and autonomous agentic loops (Claude Code, Pi Agent, OpenAI Codex, RAG). Proven success architecting scalable production backends (5,000+ iOS downloads for Amnan Preathor), winning national startup hackathons (Top 3 UniPreneur Season 3 for Bac.ai), and mentoring founders as an AI Technical Coach for MPTC & FirstWave.

TECHNICAL SKILLS & CORE ARCHITECTURE

AI & Agentic Loops:

Claude Code CLI Pi Agent (pi.dev) Harness OpenAI Codex & Frontier Models RAG (Neuron AI / PHP)
Autonomous PR Synthesis Prompt & Context Engineering

Frontend & Modern Web:

React 19/18 Next.js 14 (App Router/SSR/ISR) Nuxt.js 3 Vue 3 TypeScript Tailwind CSS Framer Motion
GSAP Zustand Redux Toolkit Pinia

Backend & APIs:

NestJS (Microservices) Java Spring Boot Laravel (PHP) Express.js / Node.js RESTful APIs Supabase
WebSockets

Data & Distributed:

PostgreSQL MySQL MariaDB Prisma ORM JPA / Hibernate Apache Kafka RabbitMQ Eureka / Nacos

DevOps & Cloud:

Docker NGINX Cloudflare Tunnels & R2 GitHub Actions CI/CD Git / Bitbucket / Gitea Linux / HomeServer
Figma

PROFESSIONAL EXPERIENCE

Full Stack Developer • SALATECH PTE LTD

Jan 2026 – Present | Phnom Penh

- Architected and deployed high-performance web applications and student advisory guidance portals using **Nuxt.js 3**, **TypeScript**, and **NestJS microservices**, serving digital education workflows across Cambodia.
- Engineered autonomous **AI agent loops and LLM orchestration** using Pi Agent (pi.dev), Claude Code, and OpenAI Codex to automatically synthesize, test, and submit pull requests directly from issue specifications.
- Designed scalable REST APIs, optimized PostgreSQL relational queries, and implemented JWT/RBAC security pipelines while boosting Core Web Vitals across Sala's digital guidance ecosystem.

Key Stack: Nuxt.js NestJS TypeScript PostgreSQL AI Agentic Loops REST APIs CI/CD

Backend Developer & RAG Engineer Intern • Paragon International University

Nov 2025 – Present | Phnom Penh

- Engineered production **Retrieval-Augmented Generation (RAG) pipelines** using Neuron AI (PHP) on Paragon IU's ERP system for high-accuracy semantic search and intelligent university information retrieval.
- Specialized in **Laravel backend architecture**, designing and maintaining robust RESTful APIs, data migrations, and complex university administrative workflows.
- Administered MySQL database optimization, indexing strategies, data integrity constraints, and role-based access control (RBAC) across student- and faculty-facing portals.

Key Stack: Laravel Neuron AI (PHP) RAG Pipelines MySQL REST APIs ERP Systems

Founder & Full-Stack Developer • CamboConnect

Feb 2025 – Present | Phnom Penh

- Founded and engineered Cambodia's premier centralized opportunity discovery platform, aggregating national hackathons, incubators, startup grants, and competitive internships.
- Architected modern responsive UI using **Next.js 14 App Router**, **Zustand** state management, and **Tailwind CSS**, utilizing server-side rendering for optimal SEO and rapid page loads.
- Implemented real-time notification streams, opportunity bookmarking, administrative submission verification pipelines, and structured analytics dashboards backed by **PostgreSQL** and **Prisma ORM**.

Key Stack: Next.js 14 TypeScript Tailwind CSS Zustand Prisma ORM PostgreSQL

Webapp & Tech Dev Executive Intern • Origins Studios

Aug 2025 – Oct 2025 | Phnom Penh

- Architected and deployed internal enterprise workflow platforms with **Next.js**, **Prisma ORM**, and **Cloudflare R2** object storage, streamlining team asset delivery and task management.
- Pioneered IoT robotics prototyping: built a wireless RC car running on **Python & Arduino** with real-time FPV camera video streaming and low-latency telemetry mapped to a physical gaming steering wheel controller.

Key Stack: Next.js Python Arduino / IoT Cloudflare R2 Prisma ORM

 PROFESSIONAL EXPERIENCE (CONTINUED)

Project Management (Tech & Operations) • Global SDGs & Leadership Center (UNITAR Singapore) [↗](#) Jan 2026 – Present | Singapore / Remote

- Spearheaded technology operations and digital platforms for global youth initiatives, including the **AIGC for Future Global Challenge** co-hosted with ITU and DEC40.
- Managed cross-border digital submissions, international delegate tracking, virtual information sessions, and collaborative workflows across Singapore, Beijing, and Geneva.

Key Stack: Tech Project Management AIGC Challenge Global Operations Digital Workflows

Frontend Developer Intern • CodeForCambodia [↗](#) Nov 2024 – Feb 2025 | Phnom Penh

- Developed responsive and animated user interfaces using **React.js** and **Tailwind CSS**, collaborating across Git feature branches to deliver production client applications on schedule.
- Integrated dynamic REST APIs, resolved client-side state bottlenecks, and elevated UX accessibility and cross-browser responsiveness.

Key Stack: React Tailwind CSS JavaScript Git REST APIs

Ecommerce Website Developer • Soriya Pearl [↗](#) May 2024 – Present | Phnom Penh

- Architected complete e-commerce platform on **WordPress & WooCommerce** for fine jewelry and pearl retail, integrating secure payment gateways, customized catalog filtering, and performance optimization.

Key Stack: WordPress WooCommerce PHP MySQL Payment Gateways

<> FEATURED KEY ENGINEERING PROJECTS

Amnan Preahthor (អំណានព្រះធម៌) 5K+ DOWNLOADS • iOS

Samdech Preah Oddom Vongsa Kou Sopheap

Official Khmer Dharma audio streaming mobile app. Architected high-concurrency **Supabase** backend, authentication, and **Cloudflare** audio distribution to reliably serve audio streams across iOS devices.

Supabase • Cloudflare • REST APIs • iOS [App Store ↗](#)

Bac.ai — Khmer AI Math Tutor TOP 3 WINNER

Co-Founder & AI Full-Stack Engineer

Cambodia's first Khmer-language AI math assistant for Grade 10–12 aligned with official MOEYS curriculum. Decomposes complex math into intuitive, step-by-step Khmer explanations. Awarded Top 3 out of 60 teams.

Next.js • TypeScript • LLM APIs • PostgreSQL [News ↗](#)

Sala Agentic Coding Pipelines AI WORKFLOW

SALATECH PTE LTD (sala.co)

Researched and engineered autonomous AI agent loops pairing **Pi Agent**, **Claude Code**, and **Codex** to autonomously transform product specs into fully tested GitHub pull requests.

Pi Agent • Claude Code • Codex • TypeScript [sala.co ↗](#)

Cheang Bak Van Hong (CBVH) MONOREPO

Production Luxury Platform

Luxury jewelry platform built as a **Turborepo monorepo** pairing a **Next.js** frontend with a high-performance **NestJS** backend. Features inventory tracking and automated Telegram checkout dispatch.

Turborepo • NestJS • Next.js • Telegram Bot [cbvh.com.kh ↗](#)

 HONORS, AWARDS & KEY ACHIEVEMENTS

AI Technical Coach — AI in Motion (AIM) Build Week & MVP Sprint Selected by FirstWave & Ministry of Post and Telecommunications (MPTC) to mentor startup founders at CADT Innovation Center on rapid MVP prototyping, vibe-coding, software architecture, and generative AI.	Aug–Sep 2026
Top 3 Winner — UniPreneur Season 3 (Khmer Enterprise & Thurawadh) Selected as Top 3 out of 60 university startup teams across Phnom Penh for Bac.ai, Cambodia's first AI math tutor.	Aug 2025
Best Presentation Award & Top 4 Overall — ASEAN-China-India Youth Leadership Summit (ACIYLS) Awarded Best Presentation for Jubbly's smart room occupancy & IoT electricity conservation system utilizing OpenCV.	Aug 2024
National Finalist — ASEAN Data Science Explorers (ASEAN Foundation & SAP) Selected as national finalist for presenting data-driven analytics on regional sustainable economic development.	Jul 2024
100% Full Academic Scholarship — Paragon International University Awarded full 4-year tuition scholarship for outstanding National High School Exam score (99.5, Grade A, Top 1% in Cambodia).	2024 – 2027

 EDUCATION & CREDENTIALS

Paragon International Univ.
B.S. in Management Info Systems (MIS)
2024 – Present (Current Junior)

- 100% Full Academic Scholarship
- Focus: Software Architecture, DBs, Networks, Cybersecurity & Strategy

Instinct Institute
Certified Web Developer
June 2023 – Dec 2023

- Full-Stack Web Development
- Express.js Backend Architecture
- React.js Frontend Integration

The Westline School
High School Diploma
Graduated 2023

- National Exam: **Score 99.5, Grade A**
- Ranked in **Top 1% Nationally**
- TOEFL ITP: **532** | IELTS: **6.0**
